

VesCo SOLUTIONS

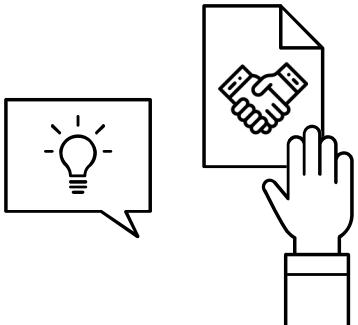

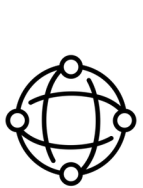

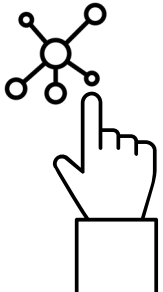

BENCHMARK IN CONNECTIVITY

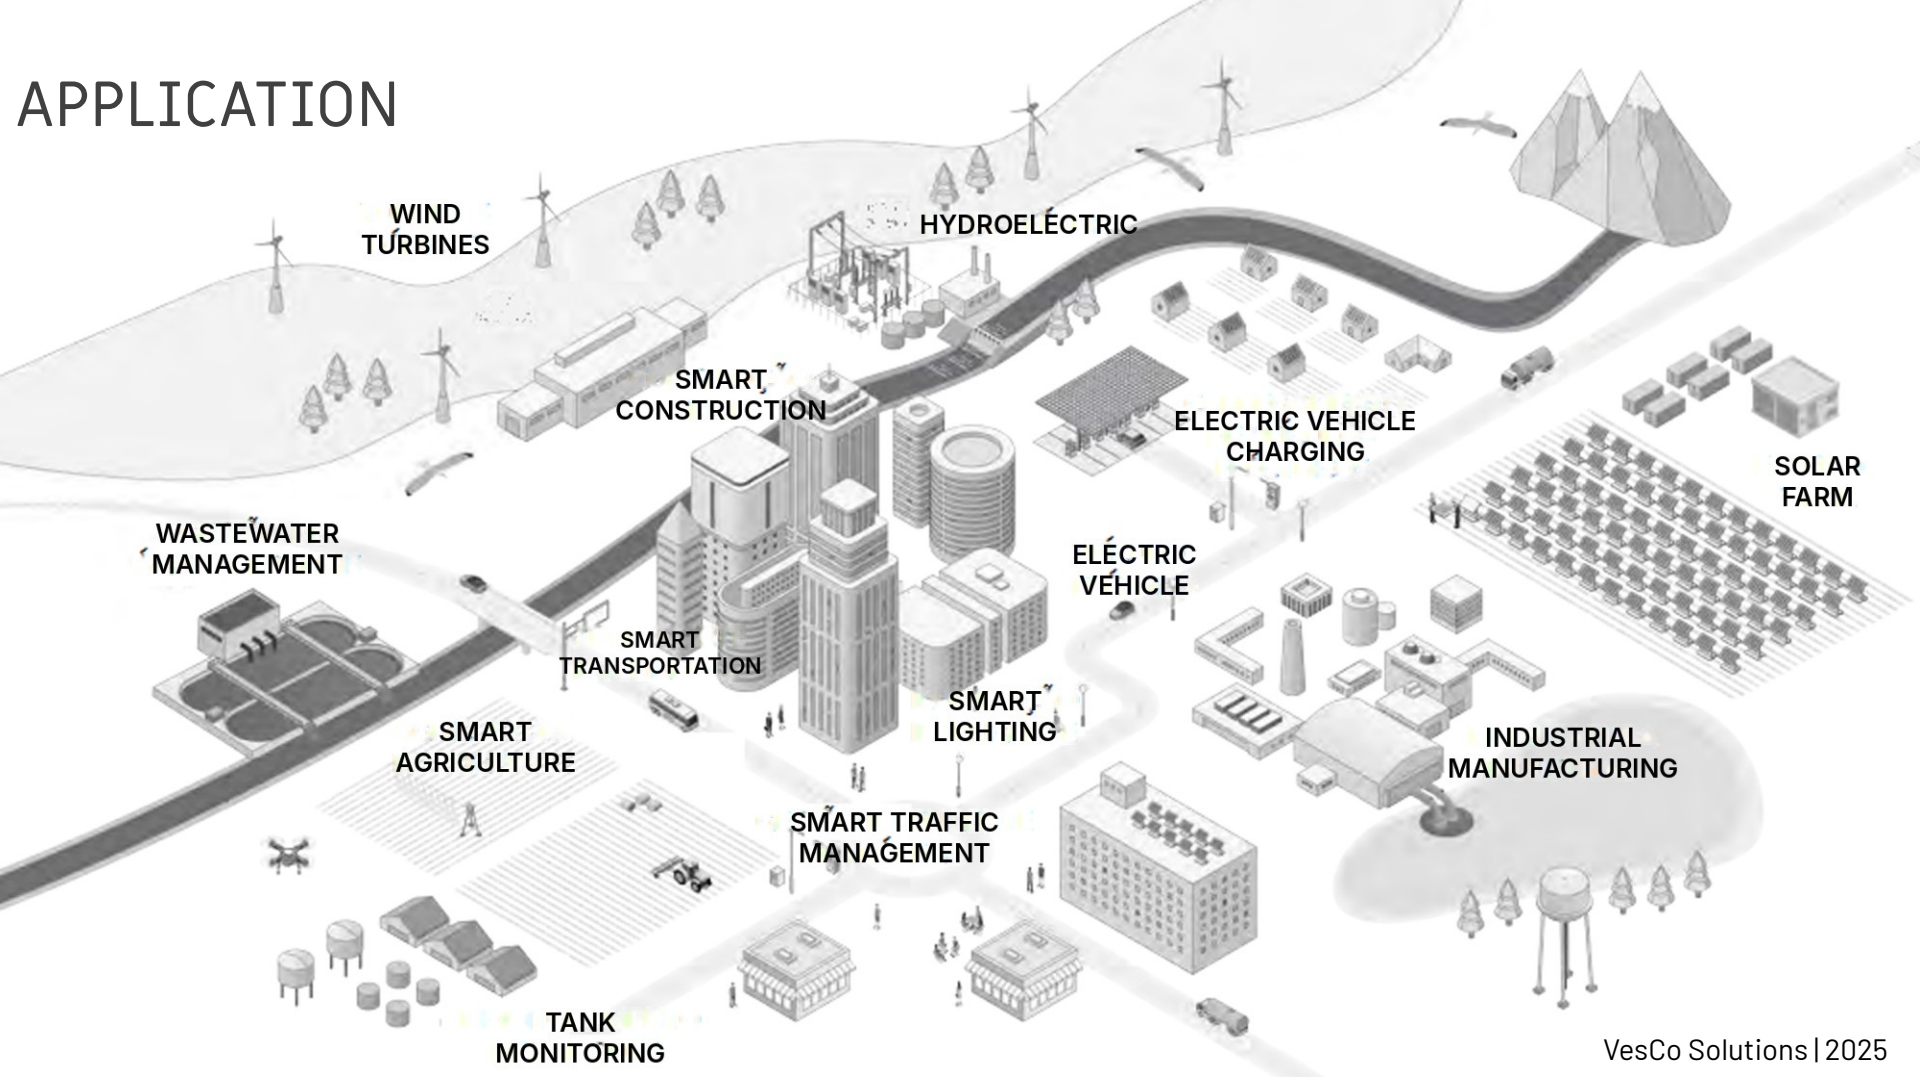

VesCo Solutions | 2025

MAIN CHALLENGES

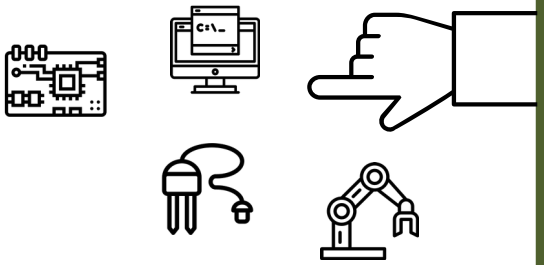

- A smooth and effective migration to networks that represent the global state of the art.
- A robust, reliable solution with a reduced total cost of ownership.
- Identification of the companies and most advanced technologies on the market, leveraging the legacy system.

APPLICATION

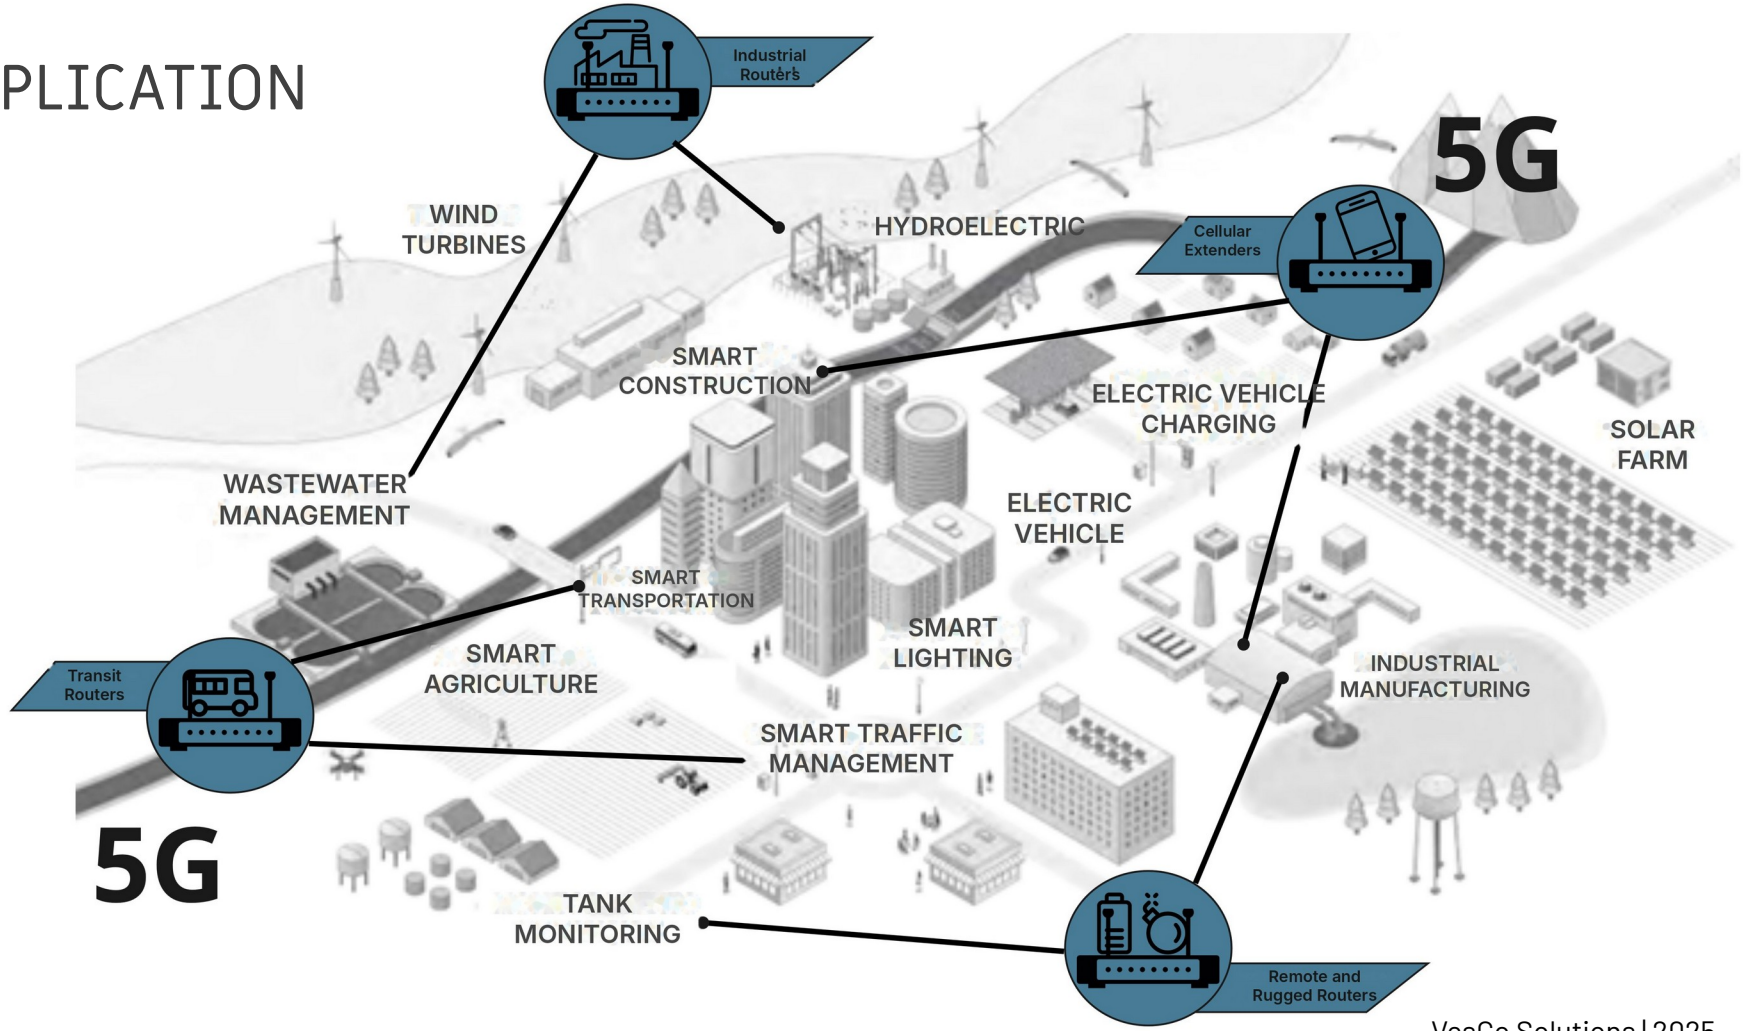

CELLULAR ROUTER BENEFITS

5G

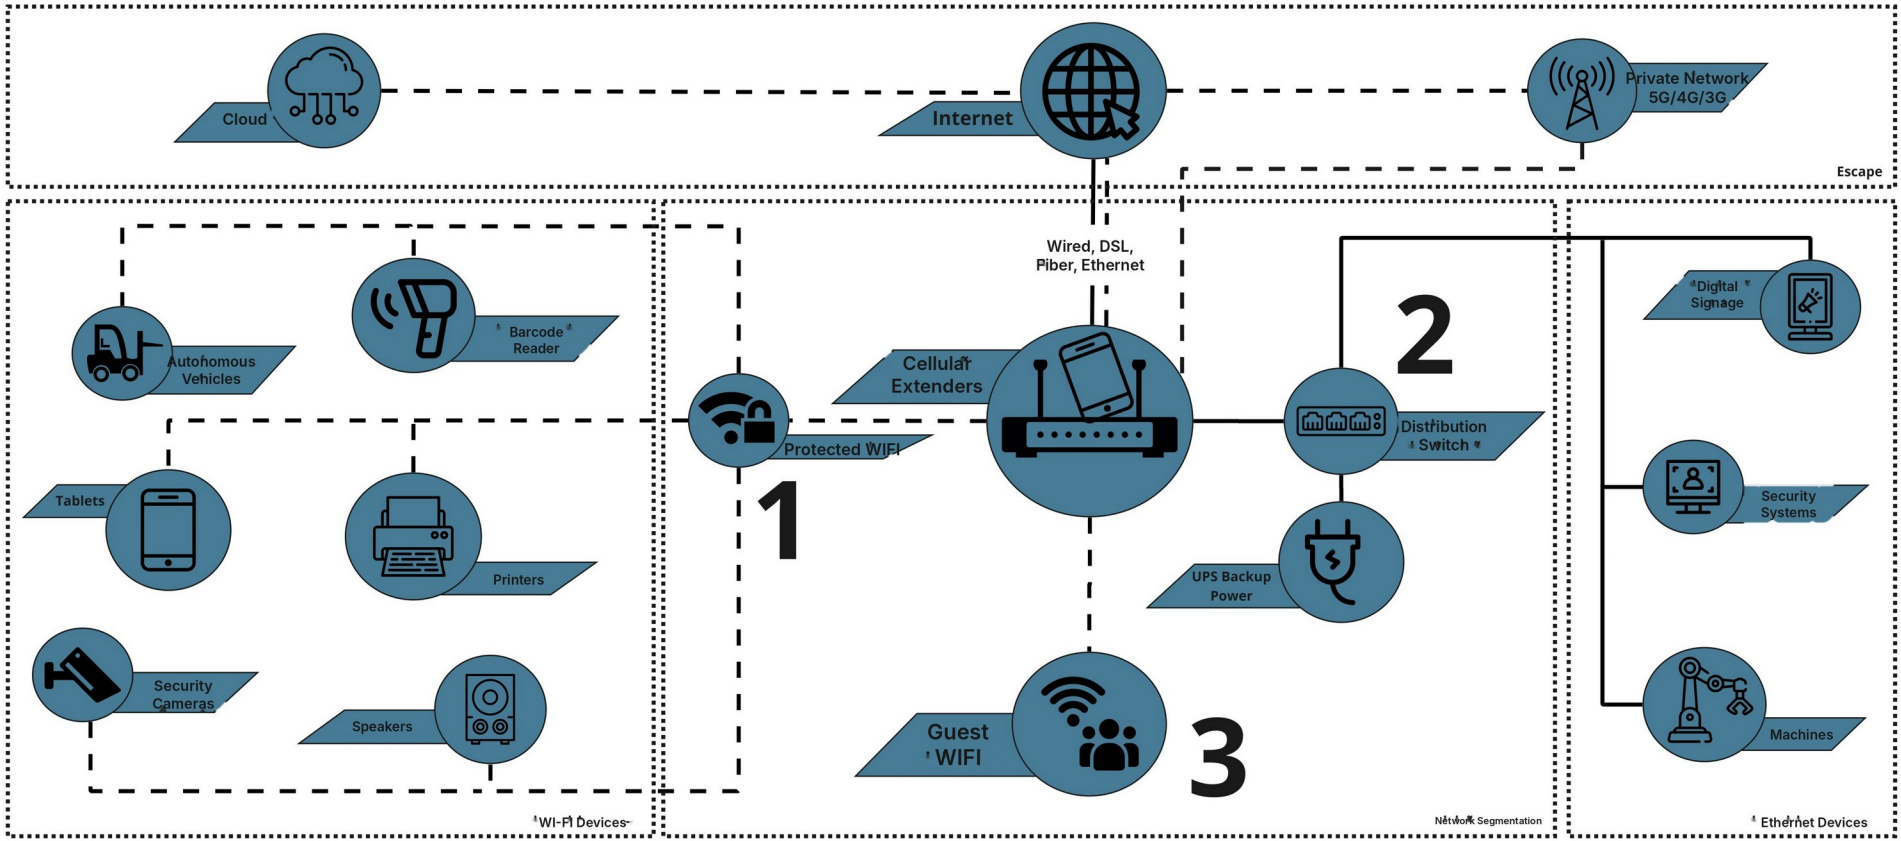

- Reduces deployment costs;
- Reduces dependence on wired connections;
- Supports more users, with greater bandwidth;
- Automatically takes over operations if the primary connection fails;
- Enables fast, reliable upgrades, always operating with state-of-the-art connectivity;
- Redundant operation with 2 SIM cards: the router always operates on the one with the best signal;
